Hierdie bestandele is kragtige anti-oksidente, hoofsaaklik aktief in die macula van die oog, waar dit makulêre degenerasie voorkom. Bosbessie ekstrak verbeter nagvisie, terwyl Konensiem Q10 katarakte kan voorkom. Vision 20/20 verlig ook die algemene probleem van droë oë.

VITA & D (30's)

Vitamins A and D are fat soluble vitamins primarily associated with anti-ageing. Vitamin A promotes skin health by countering the harmful effects of the elements on the skin, resulting in a more youthful appearance and delaying the ageing process. Due to a lack of sun exposure, Vitamin D deficiency is common and may lead to weak bones and muscles, cancer and obesity. It assists in the relief of depression, multiple sclerosis, Lupus, fibromyalgia and diabetes.

Vitamieë A en D is vet-oplosbare vitamieë hoofsaaklik verbind met teen-ouderouing. Vitamieë A beskerm die vel van die skadelike effek van die elemente wat 'n jonger en meer blosende gelaat tot gevolg het. As gevolg van 'n tekort aan sonblootstelling, is Vitamieë D tekort 'n algemene verskynsel en kan lei tot 'n swak skelet en spiere, kanker en obesiteit. Dit help met die verligting van depressie, veelvuldige sklerose, Lupus, fibromialgie en diabetes.
