

HERBAZONE

HERBAZONE

Omega 3 & 6 is available from **Herbazon**, which is a direct network marketing company. **Herbazon** offers natural health products, ranging from nutritional supplements to exquisite cosmetics. All products are based on the healing power of natural herbs and medicinal plants. By joining **Herbazon** as a agent, you have direct access to the superb range of products at a preferential price for personal use. **Herbazon** also provides you the opportunity to start your own business from home and earn an income with virtually no capital outlay. You can earn an income by selling the products to other people, as well as by recruiting new distributors, which will increase your earning exponentially. The team of experts at Head Office is always at hand to support you in every aspect, be it health-, product- or business related. You will receive frequent e-mail correspondence informing you of product specials and promotions. By becoming part of the **Herbazon** Network, you will be invited to attend regular workshops, conferences and international conventions, which will increase your knowledge about herbs, herbal remedies and running your own business while at the same time allowing you to interact and socialize with other members of the network. For more information call **Herbazon** Head Office at **082 868 5701** or visit our website at www.herbazon.co.za **Herbazon** is a member of the Health Products Association of South Africa.

Each Omega 3 & 6 Capsule contains Flaxseed Oil (250 mg), Evening Primrose Oil (125 mg) and Borage Oil (125mg). Suggested dosage: 1 - 2 capsules per day.

OMEGA 3 & 6 CAPSULES

OMEGA OILS - THE MISSING NUTRIENT

Christian (4) and Jasper (7)

These are pictures painted by Christian at nursery school before (left) and after (right) supplementation with Omega 3 & 6 Capsules for a few weeks. Both children showed a dramatic improvement in concentration, mood, mental acuity, temper and sleeping patterns after supplementation with Omega 3 & 6 Capsules.

Herbazone's Omega 3 & 6 Capsules support and enhance the nutrition of people who do not get a sufficient amount of essential fatty acids in their daily diet. Fatty Acids are considered essential, because they cannot be manufactured in the body and have to be supplied by the food we eat.

The current refined western diet is very low in healthy essential fatty acids, but high in unhealthy fats. In addition, the high sugar content of the food interferes with the absorption of healthy fats.

It is therefore almost certain that most people, including children, who live in the modern world are deficient in essential fatty acids.

Essential fatty acids, commonly known as Omega Oils are nowadays called "the missing nutrients", and their deficiency causes a wide range of illnesses, diseases and chronic symptoms.

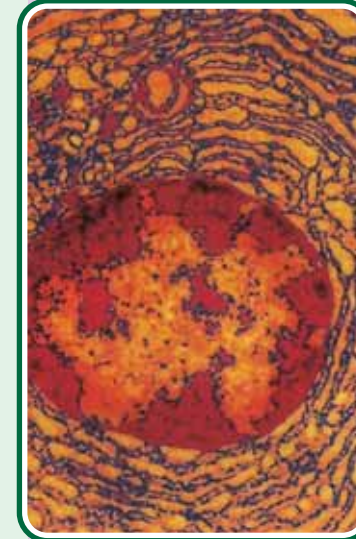

HERBAZONE

Omega 3 & 6 oils are components of all cell membranes, and form a barrier to protect the cell from bacteria and viruses, while regulating the transport of nutrients and waste products in and out of the cell.

Omega 3 & 6 oils also act as building blocks for a range of vital cell regulators called prostaglandins.

Prostaglandins regulate the cell's activity, while playing a vital role in the control of the body's numerous metabolic processes.

A deficiency of essential fatty acids can contribute to a multitude of problems, including: high cholesterol levels, dry skin conditions (eczema), cancer, attention deficit (hyperactivity) disorder (ADD), premenstrual syndrome, arthritis, hair loss, multiple sclerosis, cardiovascular (heart) diseases including high blood pressure, brittle nails, chronic fatigue, depression, dry eyes, infertility, constipation etc.
