Herbazone Reconstruction Cream With Centella and Tea Tree Oil

Herbazone Reconstruction Cream is completely natural and contains two medicinal herbs, called Centella Asiatica and Tea Tree Oil. It has a wide spectrum of uses and is especially beneficial and effective in assisting the skin to heal after a surgical incision and to minimize scar tissue formation.

*Herbazone is a young, dynamic direct network marketing company. We are passionate about our business and pride ourselves in doing things differently. We offer unique and exclusive products, ranging from superb nutritional supplements to exquisite – yet affordable - cosmetics. All products are based on the healing and nurturing power of natural herbs and indigenous South African medicinal plants. By joining **Herbazone**, you have direct access to our superb range of products at a preferential price for personal use. **Herbazone** also provides you the opportunity to start your own business from home and earn a substantial income with virtually no capital outlay or overhead expenses, making your personal risk negligible. You can earn an income by recommending and selling our products to other people, as well as by recruiting new distributors, which will increase your earnings exponentially in a very short period of time. Our team of experts at Head Office is always at hand and accessible to support you in every aspect of your involvement in **Herbazone**, be it health-, product- or business related. You will also receive frequent e-mail correspondence informing you of product specials and promotions. By becoming part of the **Herbazone** Network, you will be invited to attend regular workshops, conferences and conventions, which will increase your knowledge about herbs, herbal remedies and running your own business while at the same time allowing you the opportunity to interact and socialize with other members of the network. For more information call **Herbazone** Head Office at **082 868 5701** or visit our website at www.herbazone.co.za /info@herbazone.co.za **Herbazone** is a member of the Health Products Association of South Africa.*

HERBAZONE

Twice daily application to the healing wound will encourage the wound to heal and the tissue to knit. Within a few weeks of surgery, it will be hard to tell where the incision was !

In addition, Herbazon Reconstruction Cream has anti-bacterial, anti-viral and anti-fungal properties, and helps in the treatment of athlete's foot, warts, acne, bites, stings, cuts and bruises.

Mr Oberholster had to undergo a knee replacement. These photographs were taken on the day the stitches were removed, and three months later, after using Reconstruction Cream.
